

LEARN. SHARE. CONNECT.

CareConnectPSS® is proud to present a patient support meeting called Perspectives. We are happy to welcome you and your family members who are impacted by a chronic illness, like lysosomal storage disorders. Perspectives is a unique resource that allows you to share your challenges of living with a rare disease with other patients like you. You can share your experience, and find new perspectives and resources to support your journey.

JOIN US in our meetings focused on: Managing Self Care, Coping with a chronic illness.

The meeting will be moderated by a CareconnectPSS Case Manager, and include time to connect with your CareconnectPSS team, share your perspectives, learn from others, and develop relevant strategies to cope with chronic illness.

If you have any questions about the Perspectives program, call **1-800-745-4447** and choose **Option 3** or email info@CareconnectPSS.com to speak with a CareConnectPSS Case Manager.
